

Let's Keep the Momentum Going

A Word from the Chairwoman

Debra Haaland, June 19, 2016

Democratic voters turned out in record numbers in this primary election, and it's a sign that our candidates are energizing voters across the state.

New Mexico saw 33% total turnout, Democrats leading Republicans with more than 77,000 votes in the early voting—Republicans only had a little over 36,000.

I'm so grateful for the hard work that all our campaigns exhibited - even those without a primary opponent.

I want thank to all the volunteers who poured out onto the streets in cities, towns, and communities across New Mexico to ensure that their candidates were represented.

I'm especially proud to have had opportunities to speak personally with both Senator Sanders and Secretary Clinton about the importance of New Mexico in this election.

Both campaigns took our voters seriously and spent significant resources here to organize volunteers and work diligently at getting voters to the polls.

I'm so pleased to have had a record number of primary election voters go to the polls for both early and election day voting, and I encourage all of us to continue with the momentum we have built over the past year.

It is important that we unite to elect all of our Democratic candidates up and down the ballot in every single precinct in our state.

I offer my unwavering support to all of our candidates.

Democrats stand with the LGBT community in the fight to ensure that all Americans benefit from the civil rights that each of us deserve — because the fight for equality affects us all.

New Mexico Democrats showed up in strong numbers at the Albuquerque Pride Parade Saturday, June 11. With the help of the Bernalillo County Democrats, our candidates marched in solidarity with New Mexico's LGBT community. It was great to see, Michelle Lujan Grisham (photo right), Maggie Toulouse Oliver, Daymon Ely, Linda Stover, and Julie Vargas supporting equality at the parade.

Democrats stand with the LGBT community in the fight to ensure that all Americans benefit from the civil rights that each of us deserve — because the fight for equality affects us all.

We will continue to fight alongside the LGBT community, friends, family, and allies in the hope that one day each of us will be seen as equal under the law.
